

How would you like your shower glass to look?

To ensure your shower glass remains as clean and shiny as the day you bought it, with the least possible effort –

ASK FOR CLEARSHIELD GLASS!!

The incredibly effective way to protect your shower.

Despite your hard work, shower glass becomes increasingly difficult and sometimes impossible to clean, spoiling the appearance and the hygiene of your shower.

Ordinary glass will allow limescale to bond on to it. Over time regular washing will simply no longer remove it – no matter how hard you try.

What is ClearShield and why does it work?

Its unique 'non-stick' action makes it difficult for dirt to build up quickly and bond to its surface.

ClearShield in action:

- Saves time and effort
- Keeps your shower looking like new
- Creates a more hygienic environment

Fact: Showers get dirty

Glass is a sensitive material that reacts with its environment. Soaps, body fats, salts and minerals (limescale) can quickly build up on your shower glass. Over time unprotected glass suffers permanent bonding of these residues, causing staining and physical damage. This is why water spots become very difficult, if not impossible to remove, no matter how hard you try! Regular washing will simply not remove them, spoiling the appearance and hygienic environment of your shower.

What is ClearShield and why does it work?

Working just like 'non-stick' cookware, ClearShield acts as a lasting protective barrier on the surface of the glass. It stops limescale and other residues from bonding with the glass.

ClearShield protection for glass provides a surface that:

- Resists staining from hard water deposits
- Is easier to clean
- Does not support the growth of bacteria
- Eliminates the need for harsh and abrasive cleaning products

Specially developed After-Care for Shower Glass

Cleaning your shower glass no longer requires harsh and abrasive materials, which may be harmful to you and to the environment. After-Care for Shower Glass has been specially developed to gain the maximum performance from ClearShield Glass. It is a very effective cleaner and disinfectant. Using this aftercare in a simple and regular manner, you will find that it enhances the benefits of having ClearShield in your shower.

Remember, ClearShield in action:

- Saves time and effort
- Keeps your shower looking like new
- Creates a more hygienic environment

**Protect your investment!
Insist on having ClearShield
on your shower glass ...**

you deserve nothing less.

Extract of report 'On adherence of bacteria to surfaces treated with ClearShield' by Centre for Applied Microbiology & Research, Public Health Laboratory Service, Porton Down, Salisbury.

Ordinary Glass

Clear-Shield Glass

Micrographs of cells of staphylococcus aureus adhering to glass slides (after washing).

**'In conclusion, the results clearly show that ClearShield firstly impeded adherence of bacteria and secondly encouraged desorption by washing',
Public Health Laboratory Service**
