

# Heritage Putty

**NEW  
& IMPROVED  
FORMULATION**

A durable elastic and paintable cartridge-applied putty for the installation of single glass, insulating glass units and reduced sightline units.

For the restoration and replacement of glazing in period properties, listed buildings and conservation areas. Suitable for glazing where the appearance of a traditional putty is required.

#### Improved tooling

Excellent tooling and application characteristics.

#### Sensitiser Free

New healthier formulation with no sensitisers.

#### Paintable

Heritage Putty can be painted with water and solvent based products.

#### Heritage Glazing Systems

For use in the 'H' Glazing Systems - see information sheets for use.

#### Available in:

WHITE

BLACK
