

Stabila (STB81SREM)

81S REM Rare Earth Magnetic Torpedo Level 25cm

The Stabila 81S Torpedo Level has a strong cast aluminium T profile making it easy to hold. The particularly slender trapezoidal bevelled shape makes it suitable for working in cramped spaces. The die cast frame has 1 milled measuring face and protecting noses to prevent damage to milled face. Additional magnets mounted in the milled measuring surface hold this level securely on scaffolding or beams. 2 Vials: 1 plumb, 1 horizontal. Accuracy: Normal Position: $\pm 0.29 \text{ mm/m}$. Accuracy: Overhead Position: $\pm 0.43 \text{ mm/m}$. Type 81SREM has rare earth magnets: five times stronger. The Stabila 81S REM Rare Earth Magnetic Torpedo Level is supplied loose.
