

PVCu SOLVENT CLEANER

Version No.2

Revision Date: 31/03/09

Page 1 of 1

DESCRIPTION

Solvent-based cleaner for PVCu surfaces.

KEY FEATURES

Restores any PVCu surface to its original colour.

Powerful cleaning agents act quickly to remove ingrained dirt which cannot be removed with soap and water.

Available in solvent-based or cream-based types.

USES

For cleaning both white and brown PVCu and can safely be used on woodgrain surfaces.

APPLICATION

PROPERTIES

Application temperature range: +5°C to +30°C

Shelf life: 12 months when stored flat in original packaging in cool, dry conditions away from direct sunlight.

INSTRUCTIONS

Application: Use two cloths, one to apply the cleaner and a second dry, clean cloth to buff up the surface. Apply the cleaner to the surface using a soft cloth. Repeat the application for stubborn marks. Allow about 15 minutes after application and buff up with a clean cloth. Caution: Avoid prolonged contact with any glazing seals - it is advisable to wear rubber gloves when using the cleaner.

PACKAGING

1 litre bottle - 10 per case.

GENERAL

PVCu Solvent Cleaner is part of a full range of cleaning products, tools and consumables for the Glass & Glazing market. For further information please contact our Customer Care Team or visit our Website.

The information given in this product data sheet is based on laboratory tests and experience which we believe to be correct. Properties quoted are typical and do not therefore constitute a specification. In view of the wide range and variability of substrates, we would advise that our product should be tested by the user to establish suitability for its intended application. E & OE.
