

For easy-to-clean sandblasted glass free of fingermarks.

Sandblasted glass protected with ClearShield...

- Resists fingermarks and other staining
- Is always easier to clean and keep clean
- Resembles the attractive satin finish of acid-etched glass

ClearShield is a strong, durable protection that maintains the visual appearance of glass for years.

Ordinary sandblasted glass easily and rapidly loses its visual appeal through staining, especially from fingermarks. Maintenance is very difficult if not impossible. However, protection with ClearShield is the ideal solution as it resists fingermarks and staining and also maintains the intended beautiful appearance of decorative glass. In addition, sandblasted glass resembles the attractive satin look of acid-etched glass.

What is ClearShield and why does it work?

Working just like 'non-stick' cookware, ClearShield acts as a lasting protective barrier on the surface of the glass. It stops fingermarks and other residues from bonding with the glass.

Its unique 'non-stick' action makes it difficult for dirt to build up quickly and bond to its surface.

Specially developed After-Care for sandblasted glass

Generally, the uniform finish of sandblasted glass (with or without ClearShield protection), can be greatly affected by harsh and abrasive cleaning. Clean-All and After-Care for ClearShield Glass have been specially developed to gain maximum performance for a sparkling look. Particularly effective for cleaning fingermarks, grease and general dirt, you will find ClearShield After-Care products enhance the benefits of having sandblasted glass protected with ClearShield.

	Unprotected Glass	ClearShield 'Non-Stick' Glass	
For all exterior and interior – sandblasted/abrasively etched glass – leaded glass – stained and coloured glass	<ul style="list-style-type: none"> – Normally difficult, if not impossible, to clean – High maintenance, requires frequent cleaning – Easily loses its transparency and sparkling appearance 	<ul style="list-style-type: none"> – Always much easier to clean, for more convenience – Low maintenance, on average cutting cleaning frequency by half, reduces costs – Stays in pristine condition longer, maintains visual appeal 	Sandblasted glass Unprotected v Protected
+ added benefit for sandblasted/abrasively etched glass	– Easily stained by fingermarks	– Resists staining by fingermarks, sandblasted surface resembles the satin look of acid-etched glass	
+ added benefit for leaded glass	– Easily stained by run-off from the lead	– Resists staining, holds original value for longer	Stained glass Unprotected v Protected
+ added benefit for stained and coloured glass	– Colours lose their brilliance under build-up of dirt and staining	– Resists staining, maintains intended design and appearance
