ADVANTAGES

- The pre-portioned resin capsule is especially economical for individual applications and overhead installations.

ADVANTAGES

- The pre-portioned resin capsule is especially economical for individual applications and overhead installations.

FUNCTIONING

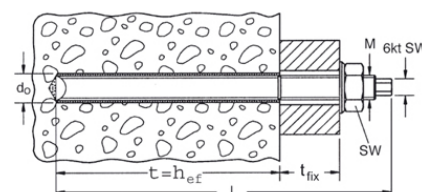

- The 2-component resin capsule R M contains quick-setting styrene-free vinyl ester resin and hardener.
- The threaded rod RG M is set using a hammer drill and the accompanying setting tool in rotating and hitting motions.
- During setting, the oblique edge of the RG M destroys the capsule, and mixes and activates the mortar.
- The mortar bonds the entire surface of the threaded rod with the drill hole wall and seals the drill hole.
