

THE WHOLESALE GLASS CO.

## Glass Running Pliers Ringstar

### Instructions:

1. The window in the plier must be facing up.
2. The score line should be centered in the window.
3. The pliers can be placed over the score line from any direction. It works full circle.
4. Grasp the plier near the ends of the handles for maximum leverage.
5. Start running the glass at the beginning or the end of the score.
6. Run the score until it changes direction. Then reset the pliers to the opposite end of the score.
7. To get the feel of the tool and the amount of pressure to apply, practice first on some scrap glass.
