We Build the Invisible

Colcom è leader mondiale nel segmento di mercato di fascia alta nella fornitura di soluzioni architettoniche in vetro per esterni e interni. La leadership nella fascia di alto livello è garantita anche da brevetti innovativi.

Colcom is a world leader in the high-end segment of glass architectural solutions for indoor and outdoor applications. Our leadership in the high-end segment is guaranteed by innovative patents.

Sistemi scorrevoli invisibili e compatti

*Invisibile and compact
sliding systems*

FLUIDO+

COMPATTO, VERSATILE *COMPACT, VERSATILE*

Fluido+ 70, 110 e 150 sono i nuovi sistemi scorrevoli compatti per porte in vetro temperato. Le pareti buie appartengono al passato, le esigenze di oggi sono trasparenza e spazi ampi. La meccanica indistruttibile dei sistemi Fluido+ si fonde perfettamente con il design moderno, garantendo sicurezza, privacy e luminosità. Progettato per soddisfare le richieste del mercato, è adatto per applicazioni: a muro, a soffitto e falso soffitto. Nella versione a falso soffitto il meccanismo è completamente nascosto.

Fluido+ 70, 110 and 150 are our latest compact sliding systems for tempered glass doors. Dark walls belong to the past: modern needs are clarity and ample spaces. The resistant mechanics of Fluido+ systems blends perfectly with their modern design, allowing security, privacy and brightness. Conceived to respond market needs, they are suitable for wall, ceiling and false ceiling installations. In the false ceiling version, the sliding mechanism is completely hidden.

- Nuovo sistema di chiusura progressiva - CPCS
- Antishock disponibile
- Regolazione frontale dell'anta semplificata e rapida
- Portata fino 150 kg
- Aggancio rapido tra veletta e binario
- Disponibile la versione per porte in legno

- New CPCS progressive closing system
- Antishock available
- Front adjustment of the door: simple and quick
- Capacity up to 150 kg
- Quick coupling of sliding rail and cover
- Available for wooden doors

Colcom Progressive Closing System

FUNZIONALE, SICURO

FUNCTIONAL, SECURE

Fluido+ integra il nuovo sistema Colcom di chiusura progressiva “Colcom Progressive Closing System”(CPCS); combinando il design minimale alla massima funzionalità. E’ l’accessorio che permette una chiusura automatica e graduale della porta.

Il sistema antishock integrato rallenta la corsa della porta nell’ultimo tratto di chiusura, evitando situazioni di pericolo. Non modifica l’estetica della porta poiché è invisibile dall’esterno; può essere applicato anche su ante in legno. Si installa facilmente e velocemente in ambienti sia residenziali che commerciali.

Fluido+ features the new closing system “Colcom Progressive Closing System” (CPCS); combining minimal design and maximum functionality. The accessory allows an automatic and gradual closing of the door.

The integrated antishock system slows the movement of the door in the last section, avoiding dangerous situation. It does not modify the door’s aesthetics because it is invisible from outside; can be mounted on wooden doors as well. The system is easily and quickly installed in both commercial and residential environments.

CPCS

- Chiusura automatica
- Antishock integrato
- Rallenta la porta in chiusura
- Portata fino 150 kg
- Installazione facile e veloce
- Anche per porte in legno

- Automatic closing
- Integrated anti-shock
- Slowed down closure
- Capacity up to 150 kg
- Quick and easy installation
- For wooden doors as well

FLUIDO+

Sistemas corredizos invisibles y compactos

Fluido+ 70, 110 y 150 son los nuevos sistemas corredizos compactos para puertas en vidrio templado. Espacios oscuros ya pertenecen al pasado: las nuevas exigencias son transparencia y espacios amplios. La mecánica resistente de los sistemas Fluido+ se funde perfectamente con su diseño moderno, garantizando seguridad, privacidad y claridad. Diseñados para cumplir con las exigencias del mercado, son aptos para aplicaciones a pared, a techo y a falso techo. En la versión a falso techo el mecanismo está completamente escondido.

Características:

- Nuevo sistema de cierre progresivo – CPCS;
- Antichoque disponible;
- Ajuste frontal de la puerta sencillo y rápido;
- Capacidad hasta 150 kg;
- Enganche rápido entre riel y tapa;
- Disponible también para puertas de madera.

FLUIDO+

Systèmes coulissants invisibles et compacts

Fluido+ 70, 110 et 150 sont nos derniers systèmes coulissants compacts pour portes en verre trempé. Les murs sombres appartiennent au passé : les besoins modernes sont la clarté et les grands espaces. La mécanique résistante des systèmes Fluido+ se marie parfaitement avec leur design moderne, permettant sécurité, intimité et luminosité. Conçus pour répondre aux besoins du marché, ils conviennent aux installations au mur, au plafond et en faux plafond. Dans la version faux plafond, le mécanisme coulissant est complètement caché.

Caractéristiques:

- Nouveau système de fermeture progressive CPCS;
- Antichoc disponible ;
- Réglage frontal de la porte simple et rapide ;
- Capacité jusqu'à 150 kg ;
- Accouplement rapide du rail coulissant et du couvercle ;
- Disponible pour les portes en bois.

FLUIDO+

Unsichtbare und kompakte Schiebesysteme

Fluido+ 70, 110 und 150 sind unsere neuesten kompakten Schiebesysteme für Türen aus ESG Glas. Dunkle Wände gehören der Vergangenheit an: Moderne Bedürfnisse sind Klarheit und viel Platz. Die widerstandsfähige Mechanik von Fluido+ -Systemen passt perfekt zu ihrem modernen Design und ermöglicht Sicherheit, Privatsphäre und Helligkeit. Konzipiert, um den Marktanforderungen gerecht zu werden, eignen sie sich für Wand-, Decken- und Zwischendeckeninstallationen. In der Zwischendeckenversion ist der Schiebemechanismus vollständig verborgen.

Eigenschaften:

- Neues progressives CPCS-Schließsystem;
- Antischock verfügbar;
- Vordere Einstellung der Tür, einfach und schnell gemacht;
- Tragfähigkeit bis zu 150 kg;
- Schnelle Kopplung von Gleitschiene und Abdeckung;
- Verfügbar für Holztüren.
